SERVICE WITH
scrubEx®

SOLVE YOUR SCRUB MANAGEMENT ISSUES

IMPROVE YOUR SCRUB MANAGEMENT PERFORMANCE WITH THE *scrubEx* SOLUTION

THE PROBLEM

THE SOLUTION

scrubEx reengineers surgical scrub distribution within your hospital. Our secure machines provide authorised staff with clean scrubs in the right size exactly when they are needed. Scrub purchasing and laundering costs are reduced by eliminating unauthorized scrub access. The program also drives compliance with AORN Guidelines for Surgical Attire, helping reduce the risk of surgical site infections.

scrubEx is offered as a capital purchase or operating tokens can be used with our subscription program - which can produce savings from day one. Contact us today to schedule a free scrub distribution assessment with one of our experienced professionals at **0818 440 440**

SECURE

Control utilisation of scrubs providing access only to authorised staff members while maintaining infection prevention compliance for safe storage of scrubs.

EFFICIENT

Utilise real-time data alerts to streamline the scrub management process and improve service needs management. And with a dispense time of less than 5 seconds, *scrubEx* dispenses scrubs faster than looking through a ransacked cart.

PROACTIVE

Take advantage of real-time scrub usage data and customised alerts for inventory replenishment.

CUSTOMIZABLE SOLUTIONS FOR EVERY HOSPITAL

Small footprint for maximum flexibility

LARGE VOLUME DISPENSER

Dispenses clean scrubs

LVD and LVR each can serve up to 170 users per day

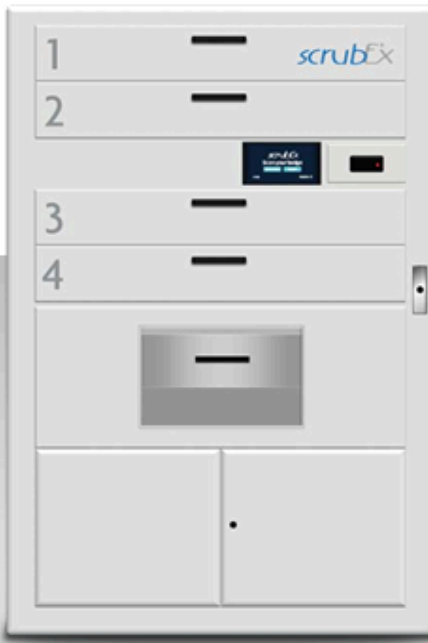

LARGE VOLUME RECEIVER

Receives soiled scrubs

COMBINATION UNIT

Dispenses and receives scrubs

MV can serve up to 75 users per day.

COMBINATION UNIT

Dispenses and receives scrubs

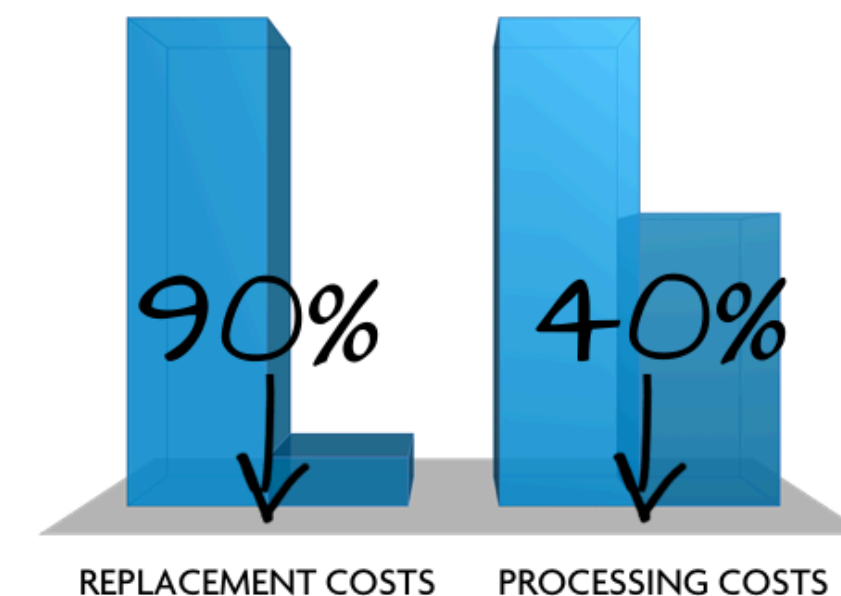

SV can serve up to 40 users per day.

*All machine sizes can accommodate jackets.

THE SAVINGS

Better Service, Lower Costs

Not only will your clinicians be more satisfied with their scrub service, but by reducing theft and putting an end to hoarding on average our customers see a reduction in scrub purchases of 90% and a 40% decrease in processing costs.

Increased Linen Staff Efficiency

No other scrub distribution method saves time like *scrubEx*. Each unit requires just 5-10 minutes to re-stock, and real-time inventory visibility is provided via the scrub & linen management system. Plus, if a department's scrub inventory runs low customised notifications send email and text alerts to linen management.
