Cost effective pressure reducing mattress

The *Invacare Essential Plus* is an entry level pressure ulcer prevention mattress designed for the community healthcare environment. Practical and durable, this mattress offers comfort, support and pressure reduction at a cost effective price. The *Essential Plus* is suitable for those considered at 'High Risk' of developing pressure ulcers.

Yes, you can.®

Features and Options

Effective Pressure Ulcer Prevention

The core of the *Invacare Essential Plus* is constructed from a series of 'keyhole cut' cells, which move independently to evenly distribute weight, promoting greater comfort and facilitating pressure ulcer prevention.

Turn and rotate

Double sided castellated foam allows the mattress to be turned or rotated for increased product longevity.

Available in the following sizes:

L2000 x W855 x D140mm
Part no: 1551553

L1950 x W880 x D140mm
Part no: 1551551

Cover is resistant to fluid ingress

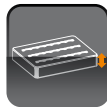

The outer cover is a multi stretch, water resistant, polyurethane fabric providing excellent recovery and durability which help to reduce shear and friction forces. The cover has a white inner liner allowing easy inspection for strikethrough or other cover damage.

Zip around three sides

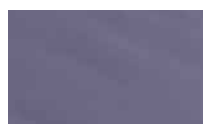

Allows easy inspection of the foam core and easy removal for laundering.

1/ Essential nursing care is pivotal in pressure ulcer prevention. This mattress will positively contribute to the outcome of a pressure ulcer prevention care plan. Education, clinical judgement and action based planning based on vulnerability are fundamental factors in the prevention of pressure ulcers. A range of assessment scales can be used as a formal method of assessing risk from pressure ulcer development, and should be used in conjunction with an informal assessment (informed nursing judgement). Informal assessment is considered to be of greater importance and clinical value.
